

KERISAC CIDER

The cider is produced from these 5 following types of apples:

Kermerien (bitter),
Bedan (sweet),

Douce-Moën (bitter-sweet),

Petit Jaune and Avrolles (acidulous).

This special cuvée is low in alcohol (only 2.5%). Refreshing, lively, bubbly and fruity, it is great as an aperitif and the ideal partner for almost any sweet and savory dish. It is also excellent when poured over desserts and sherbets.
