NORTHWEST FLANDERS

NORTHWEST FLANDERS

A tribute to the historic Flanders Red Ales of West Belgium (and a reference to the vibrant NW Flanders Street in downtown Portland), Northwest Flanders is our interpretation of the classic sour beer style that has inspired so many brewers around the world. A blend of sour red ales aged for over two years in oak barrels and foudres, Northwest Flanders captures notes of plum, currant, raisin, fig and spice with hints of oak and roasted malt.

BARREL-AGED

Our distinctive barrel-aged sour ales offer a complex array of flavors derive from Northwest grown ingredients. A pioneer in the sour beer renaissance since 2006 and the proud innovator of the Northwest Sour Ale, we are, by nature, the definition of artisanal brewing: we're not bound by stylistic guidelines, just our own imagination and the ingredients we can access.
