

VOLKER EISELE

FAMILY ESTATE

est. 1974

Chiles Valley AVA Facts:

- **Climate:** Fairly warmer summer days (mid-80°F plus/28.8 to 31°C), but due to higher elevation and summer fog at night, quite chilly at night (below 50°F/10°C). With colder winters and spring, as well as strong winds, harvest comes later than on valley floor at Oakville.
- **Elevation:** 600 to 1200 feet (182 to 366 m).
- **Rainfall:** 35 inches (88 cm) annually.
- **Soils:** On the valley floor, primarily alluvial soils with silty-clay composition of marine origin, with good fertility. Hillsides show more clay-loam and stony-clay composition, mostly marine in origin, with some volcanic outcropping, and less fertility.
- **Principal varieties & characteristics:** Cabernet Sauvignon, Merlot, Cabernet Franc & Zinfandel: Cabernets usually reveal a lush yet firm texture with good acidity, firm tannin and distinctive cherry-blackberry flavors. Merlot typically has vibrant black cherry flavors mixed with a touch of cocoa.

Volker Eisele Vineyard Facts

Block	Varietal	Clone	Year Planted	Rootstock	Acerage	Soil
Canyon	Cabernet Sauv.	336	1992	110R	7	Clay loam/Clay with fractured shale
	Cabernet Sauv.	6	2004	110R		Clay loam/Clay with fractured shale
