

# ENCOSTAS DO LIMA

VINHO VERDE 2020

*"Excellent"*

*The Washington Post*

"Lean and focused, the Granite version of this vinho verde seems focused on the earth - or the rock - while the Schist tastes more of flowers and fruit reaching for the sun. Aside from showing how geology influences a wine's flavor, it's a delightful patio sipper and a good choice for those relaxing days when lunch isn't just a sandwich hastily scarfed at our desks. - Dave McIntyre"
