

Rémi NIERO CONDRIEU Cherytage

2021

Decanter

"More nectarine than peach, this has real presence on the palate, and great freshness. Concentrated and intense, this has great salinity and impact and huge length, with a refreshing mineral edge. This is not a new cuvée, but rather an evolution of their cuvée Héritage. After a close inspection of their plot boundaries, it transpired that their Chéry plot is actually partly in Vernon, partly in Chéry.

So now they are bottling the Vernon part separately, and the remaining part of Chéry now goes into their cuvée Héritage from the 2021 vintage - hence the new name, Chérytage. - Matt Walls"
