

Morande Black Series Chardonnay

Vina Morande

Chile - South Region - Malleco Valley

Malleco represents the exploration of one of the most extreme valleys in Chile for wine production. A new wine frontier, an ideal terroir to produce high-end Chardonnay in Chile, with a different style from other outstanding origins such as Limarí –which offers wines with marked minerality– or Aconcagua Costa –which delivers sharp acidity and great power. The Traiguen area in the Malleco valley produces wines of great tension and fruity austerity, as well as complexity, balance and finesse. A very typical style of Chardonnay marked by elegance, verticality on the palate and subtlety on the nose and mouth.

The wine offers a bright pale yellow color, intense and elegant aromas of citrus fruits and green apples as well as hints of nuts, such as hazelnuts and roasted chestnuts. A tense and fresh acidity on the palate, and a vertical structure in the mouth. Very fine and complex, its long persistence highlights the austere character of its fruit and a delicate minerality.
