

Civil Life The Angel and the Sword Ale

Civil Life Brewing Co

United States - Missouri - St. Louis

Civil Life's loose interpretation of and English ESB. They describe it as "A departure from true-to-style brewing, we put a little bit of everything we've learned into this uniquely inclusive expression. Biscuity and bittersweet, familiar and unfamiliar, way more going on than its light color and alcohol content would suggest. Let us raise our goblets to the sky in one accord."

The beer's name comes from a famous Spanish statue of an angel holding her sword to the sky at Alcázar fortress in Toledo.
