2Bar Spirits, Straight Bourbon Whiskey 6/750ml

The Heritage

Over a century ago, the Kaiser family settled in South Texas and began ranching their land under the 2bar brand. For five generations they have stood for quality, independence, and hard work. These values are represented in each handcrafted bottle of whiskey from 2bar Spirits.

Straight Bourbon Whiskey

2bar Straight Bourbon Whiskey is made from a six-grain mash bill of corn (locally sourced and harvested in the Northwest), 4 different types of malted barley, and soft winter wheat. 2bar uses 30-gallon new charred white American oak barrels from Minnesota for aging. They are rested for about a year and then toasted. They use an equal mix of #3 and #4 char barrels:

#3 Char – the standard for 2bar – an “Alligator” char (the texture of the inside of the barrel once charred feels rough and is very similar to the look of alligator skin) provides the most vanillin, caramel and toffee flavors, and a beautiful dark amber color.

#4 Char – the second most popular for 2bar – it adds smoke, coffee and chocolate flavors, and a darker color.

2bar also ages in their Seattle distillery (in fact, all steps of production are done in-house), which sees quite a bit of heat cycling (from hot to cold and back again), which also produces smooth and well-balanced bourbon, all white at 100-proof.

*“Top 20 Bourbon under \$50.”
“One of the best Bourbons in US!”*
