WINE ENTHUSIAST®

A typical Cahors Malbec from the "Causse" Plateau. The climate is much more severe and continental than in the Lot Valley where most of the Cahors are grown. The grapes for this wine are grown on soils that are rich in limestone, bringing pure aromas and fruits. A deep red color, lots of red fruit aromas on the nose with hints of plum. On the palate, it is smooth with blackcurrant flavors, rounded tannins and just a touch of acidity.
