The taste of water is a "physical condition" and what distinguishes one product from another is its place of origin.

Acqua Smeraldina originates from the Sardinian heartland, springing from the millenary granitic depths of the uncontaminated mountain of Tempio Pausania. It comes from the heart of he who generously offers it to the world. A pure and precious natural mineral water that is the source of wellbeing. The looming shape of a stone giant, the "Monte di Deu", protects it at over 600 meters above sea level.

It is sourced from a vast, uncontaminated mountainous territory at the foot of Monte Limbara. It is "pure" water filtered through one-thousand-year-old micro-fractured granite rocks, typical of Gallura, extracted at "Monte di Deu", from springs supplied by a water bearing stratum which is 1,000 feet deep.

The benefits

- It is bacteriologically pure guaranteed by 100 daily checks
- Contains calcium that helps strengthen the bone structure
