

Cirrus

Cirrus was founded by two friends & Georgia Tech grads, Jason Santamaria and Chris Doyle, who have a passion for creating innovative products ever since.

'Cirrus' is named for the clouds and designed to lift your day. The products are zero calorie, contain no sweeteners, and are all natural.

The logo for Cirrus features the word "Cirrus" in a bold, dark blue, sans-serif font. The letter "i" is stylized with three small circles above it, resembling a cloud or a trail of bubbles.
