

Domaine Guy Bernard

France - Rhone Valley

Domaine Guy BERNARD is a small estate of the Bernard family, well established in Tupin et Semons for several generations. They produce wines in the Côte-Rôtie and Condrieu appellations in the Northern Rhône Valley. The estate is currently in the process of converting to organic viticulture (since 2017) and will apply for the official Organic Agriculture certification.

Today, the vineyards cover 255 hectares (630 acres), in the communes of Ampuis, Tupin Semons and Saint Cyr sur Rhône, including 73 parcels. This appellation has a semi-continental climate, dry and hot in Summer, with mild autumns and harsh winters, with regular rainfall the rest of the year.
