

Vitas Ribolla Gialla

Vitas

Italy - Friuli - Friuli DOC

This grape has a romantic and historical connection to the land. It is believed to have originated in Greece and made it way up to the Friuli-Venezia Giulia by way of Slovenia. Documents dating back to the 1300s show that Ribolla Gialla was planted in the region.

Fresh and floral bouquet and a consistent and rightly acidulous taste. Its pleasant freshness and fruity notes of green apple are enhanced by its characteristic acidity.
