## SYRAH

### SONOMA MOUNTAIN

By its nature, this slow-to-ripen, cool-climate Steiner Vineyard produces fabulously deep, intense, structured wines. Now, raising a big, brawny Syrah is no rare act of alchemy. It is the wonder of Steiner's terroir — a magical elegance and beauty, informing the inherent power, depth and intensity — that makes this bottling so special. 2016 produced a classic wine that deftly balances massive flavors and texture, while retaining vital freshness, and a palpable sense of cool. Production was low, so get it while you can. Simply a "WOW" wine, not to be missed.
