"The 2017 Kershaw Deconstructed Lake District Cartref SH22, matured 50% in new oak for 17 months, is a little more open on the nose compared to the SH9c and delivers a touch more red berry fruit, quite candied in style and suggesting strawberry pastilles. The palate is medium-bodied with a saline entry, fine definition and a mélange of red and black fruit laced with licorice toward the poised finish. Excellent.- Neal Martin"
