Specifications

Varietals	95% Assyrtiko and 5% Sauvignon Blanc
Soil type	calcareous clay panted at 1000 meters above sea level
Vinification	The grapes were carefully selected to ensure the healthy and ripe fruit was vinified and then gently pressed. The must was racked and cool fermented in stainless steel tanks at controlled temperatures of 14 to 16°C, with selected yeasts. The wine delivers a crisp, fresh style as it did not go through malolactic fermentation. It was lightly filtered prior to bottling.
