Harney Lane Winery and Vineyards

United States - California

Located in Lodi, California, Harney lane is owned and operated by Kyle and Jorja Lerner.

The Vineyard Philosophy: We always say that great wine starts in the vineyard. As a family owned and farmed property, we are fortunate enough to have 100% control over our wines- from grape to glass- ensuring the best possible product for our customers.

It would be hard to imagine Vineyard Manager, Kyle Lerner, doing anything but farming. His love of the land and being out in the vineyards has become a true passion, more than just a career. For Kyle, loving the land means taking care of it in a responsible way for generations to come. It also means embracing the challenges that each year brings- and anyone who knows him will tell you that Kyle loves a challenge. Every year is different, and that keeps farming exciting.

We vigilantly farm our vineyards so that we have a jump start on excellent quality wines. From planting and tending the grapes every season, to harvest and crush, to bottling. We handle our winemaking with the same care as our vineyards: our fruit is handpicked, hand sorted, fermented in small lots and then barrel aged in programs unique to each of the wines in our portfolio.
