Specifications

Varietals	100% Barbera
Vinification	Hand-picked during end of September and the first ten days of October. The grapes are pressed and the stalks removed, generating a limpid must that ferments at a controlled temperature of 26°C for 5-7 days. After racking, the new wine is put in stainless steel vats to preserve its fresh fruit characters. Then, the wine rests a few months in oak barrels, until spring. Finally, it is bottled, ready for the table
Pairings	Quercia nelle Langhe Barbera Piemonte
