

Willowcroft Cabernet Franc

Willowcroft Farm Vineyards

United States - Virginia

All Willowcroft Vineyards have Cabernet Franc. The first plantings were done in the late 1980s. Four different clones are grown. Slightly less tannic than it's cousin Cabernet Sauvignon. Can show an herbal, spicy component over time. Ripens earlier than Cabernet Sauvignon.

Delicious full-bodied wine with ruby red color, aromas of cherry, dark fruit on the palate with a soft mouth feel and a light pepper finish.

Specifications

Varietals	97% Cabernet Franc, 3% Chambourcin
